

'CUSTOMER REFERRAL' Script

For calling people who have been referred by "Yes's" and "No's"

Hello may I speak to please?

Hi my name is, I am a friend of.....

..... asked me to give you a call.

Do you have a few minutes to talk right now?

I run my own business doing 'health checks' on peoples bills... we aim to put **people in a better position with their essential services... like electricity (and gas) bills, phone, internet, home security and even banking.**

Your (friend/family member/etc)..... thought you might be open to seeing how we help people make sure they are not losing money on their bills.

This would really mean a lot to me to spend a few minutes doing a short Survey/Analysis for you!

I'm going to be in your area on..... between..... and....., what time an I pop over for 10 – 15 minutes to do a simple survey to see where we could help you stop losing money to these big corporations.

And... by the way, there is no obligation or commitment at all to do anything. I only share what's possible for your individual situation

Powerful 2:30 minute presentation by 200+ Achiever Donna Cameron-Prosser on how to acquire 5+ Referrals per Customer
